Why choose Adsale?

- The Adsale Group organizes Asia's No.1 and the world No.2 plastics & rubber trade fair - CHINAPLAS
- Has a **40-year** close relationship with industrial associations and global partners
- Has accumulated over **600,000** Adsale plastics members and **70,000** members from the medical industry

Publicity:

- Conference Preview & Review will be published in CPRJ & CPRJ International magazine and e-book
- News reports of conference, sponsors and bigwig of industry will be uploaded to AdsaleCPRJ.com and conference website simultaneously
- Deliver 3 issues of pre-event eNewsletter which include exhibitors' highlight and latest programme to **70,000+** readers from medical supplies, instruments, consumables and medical packaging
- Share the event highlight and presentation slides to **30,000** WeChat followers and **1.5 million** Weibo followers before and during the event.

Parallel Sub-Forum:

- **Medical consumables and packaging - Innovative materials and processing technologies**
- **Innovative medical plastics processing equipment and technologies, automation**

Agenda:

Oct 18 (full day)

- Forum + Showcase
- Networking + Banquet

Oct 19 (half day)

- Visit the Exhibition Hall of MicroPort Scientific Corporation
This route is for materials and equipment suppliers only, and shuttle bus would be arranged.

Visiting & Networking at MicroPort

MicroPort Scientific Corporation can trace its origin back to 1998, Shanghai China where a group of dedicated individuals joined together with a common belief that advancements in medical technology could transform and enhance the patients' well-being not just in China but globally. With a large global footprint of R&D and manufacturing facilities (Shanghai, Jiangsu, Zhejiang, Beijing, Shenzhen in China, and Memphis, TN in the United States), a strong focus on technology innovation with over 1,900 issued patents, and a global workforce of over 3,000 employees. Healthcare products including Cardiovascular, Orthopedic, Endovascular, Electrophysiological devices, Surgical management, etc.

The market outlook of medical plastics market

According to the statistics of China Food and Drug Administration, the Chinese medical device market has been growing since 2017. The Compound Annual Growth Rate (CGAR) of Chinese medical technology and device industry was 20.7% from 2011 – 2016, far much higher than the 3% of the global level. The Chinese device market reached a value of RMB 370 billion in 2016, and is expected to reach RMB 600 billion by 2019. The

imaging equipment, in vitro diagnosis and high-value consumables are the biggest sectors in the industry, accounting for 19%, 16% and 13% of the market value respectively.

Medical plastics enjoyed a prosperous year in 2017, and more high performance plastics will definitely replace metal in the medical industry. The market revenue of global medical plastics market is expected to reach US\$336 billion by 2025.

Highlights at a Glance:

Content is King

All sessions focus on understanding and essentials of the world's most popular themes in a live event. They cover business strategies and medical equipment technologies, and give practical advice on getting the most from applying new innovations.

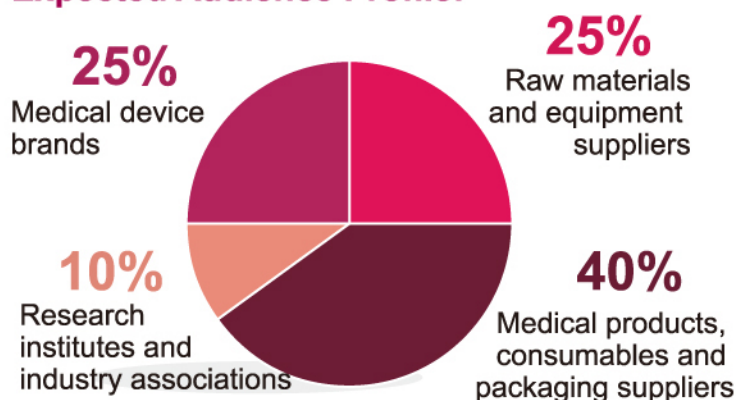

Business Matching

With 65% end users and professionals gathered, the best opportunity for business matching across the supply chain can be guaranteed.

Focused Showcase

It runs alongside the conference. Over 30 companies are expected to present their latest materials together with the end product samples.
