

8th Edition CPRJ Plastics in Packaging Conference & Showcase 2019

- Programme (As of 27 March 2020)

English-Chinese simultaneous interpretation service provided

10 June Afternoon 14:00-17:00

Time	Events	Target Audience
15:00-17:00	Small Closed-Door Meeting: Plastics recycling solution for flexible packaging	By invitation
14:00-17:00	Plant Visit: Menshen Packaging (Shanghai) Co., Ltd.	By invitation

11 June Morning Session 08:30-12:00

- Audience Reception
- Welcome Remarks Adsale Group
 China Packaging Federation
- China Packaging Federation - Hua Li, President (TBD)
Theme direction: Opportunities and challenges for plastic packaging under the new consumption mode
- Coca-Cola / Unilever or Other End-user Brands (TBD)
Theme direction: How plastic packaging allows creativity and circulation to coexist?
- Presentation
- Coffee Break / Networking / Exhibition Visiting
- CPMC Investment Company Limited / Albea Group or Other Packaging Products Enterprises (TBD)
Theme direction: How smart manufacturing meets new requirements from customized packaging
- Presentation
- Mintel / Ipsos / Nielsen or Other Consulting Companies (TBD)
Theme direction: Development trends of FMCG packaging in the post-pandemic period
- Group Photo
- Networking Lunch

11 June Afternoon Parallel Modules 13:30-18:00

Parallel Sub-Forum: New consumption model and packaging innovation

- China Food Association Food Packaging Professional Committee (TBD)
Theme direction: Overview of China's food and beverage packaging development
- Presentation
- Meituan / Eleme / Hema Xiansheng or Other Platform Enterprises (TBD)
- Presentation
- Coffee Break / Networking / Exhibition Visiting
- Heytea / Yum / Haidilao or Other Brand Enterprises (TBD)
- Presentation
- Wuxi Chuo Kagaku / Otor or Other Packaging Products Enterprises (TBD)
- Presentation

Other Sponsors/Speakers:

Colines、Cold Jet Dry Ice
Equipment (Shanghai) Co., Ltd.

More Hot Topics:

- *New designs and solutions for multi-channel e-commerce packaging*
- *Innovative packaging designs, materials and solutions for healthcare industry*
- *New requirements of takeaway / e-commerce packaging for contactless delivery*
- *Small packaging inspired by new consumption trends such as "one man 's food"*
- *New trends in tea packaging under environmental protection policies*
- *Fully automated production solutions for tea cup / self-heating food packaging*
- *Innovative production technologies for multi-layer co-extrusion high-barrier sheets*
- *Developments of blister molding high transparent PP materials for thermoforming*
- *Fully biodegradable materials for food contact containers*
- *Innovative sheet extrusion technologies for PLA and polyester sheets*
- *Green and circular thermoforming solutions*
- *Innovative solutions for thermoforming molds*
- *Upgrades and opportunities for thermoforming processing*
- *High-speed thin-wall injection molding and in-mold labeling automation solutions*
- *High-speed thin-wall injection molding with precision hot runners*

Parallel Sub-Forum: High-performance materials and innovative design

- **Pepsico Asia R & D Center Co.,Ltd.** - Johnny Zhao, Director, R & D Packaging, Greater China
Theme direction: Personalized market needs of brands
- **Nexeo Plaschem**
- **Menshen Packaging (Shanghai) Co., Ltd.** - Ricky Li, Sales General Manager, Greater China Region
- **Dow**
- **Coffee Break / Networking / Exhibition Visiting**
- **L'OREAL / NIVEA or Other Daily Chemical Brands (TBD)**
- **Presentation**
- **Sealed Air (China) Co.,Ltd.** - Jian Liang, R & D Director
Theme direction: Application of high-performance materials in plastic packaging

More Hot Topics:

- *Modified materials for cleaning / sanitizing products and household chemicals packaging*
- *High-barrier diaphragms and other materials solutions for shelf life extension*
- *New developments of high temperature resistant cooking packaging technologies*
- *Applications of high puncture resistance heat sealing materials for food and milk powder packaging*
- *Applications of recycled and biological materials for packaging*
- *Skin packaging solutions for fresh food preservation*
- *Applications and developments of high-performance easy-tearing materials*
- *Innovative sustainable design concepts and case studies such as easy recycling and reusability*
- *Lightweight packaging materials and processing options*
- *VR interactive and online tracking smart packaging*
- *High gloss and better appearance materials solutions*
- *Easy to process and low-energy consumption materials solutions*

11 June VIP Gala Dinner 19:00-20:30

12 June Morning Session 08:30-12:00

Parallel Sub-Forum: FMCG packaging - Flexible packaging

- **SELFEX**
- **JCtimes Group**
- **GSK** - Alex Hu, Asia Pacific Packaging Technology Manager
- **Presentation**
- **Coffee Break / Networking / Exhibition Visiting**
- **Mondelēz China** - Nigel Li, Senior R & D Manager, China and AP Biscuit Packaging Development
- **Presentation**
- **Jiangsu Caihua / Huangshan Novel / Tingzheng Packing Materials or Other Flexible Packaging Products Enterprises (TBD)**
- **Presentation**

More Hot Topics:

- *Automated processing and innovative designs of resealable zipper bag*
- *Applications of new modified plastics for high integrity flexible packaging*
- *Progress in innovative and efficient film and bag production processing*
- *Production technologies and applications of mono-material multilayer films*
- *Comparison of solvent-free composite solutions such as solvent-free adhesives and coatings*
- *Innovative applications of multilayer hose technologies*
- *Die technologies for eco-friendly packaging materials*
- *Resealable or zipper seal stand-up pouches*
- *Recyclable flexible stand-up pouches*
- *Skin packaging and paper-like printing in the new "fresh" era*
- *New high-speed, high-precision, low-VOC flexographic printing technologies*
- *Innovations and trends of green printing technologies*
- *Green and smart printing meets the needs of efficient and personalized production*

Parallel Sub-Forum: Smart manufacturing and supply chain management

- **Hangzhou Wahaha Group Co.,Ltd.** - Dr.Xiongfei Yin, General Manager of Precision Machine
Theme direction: Smart manufacturing helps upgrade branded products
- **JSW Machinery Trading (Shanghai) Co., Ltd.**
- **Tetra Pak (TBD)**
- **Presentation**
- **Coffee Break / Networking / Exhibition Visiting**
- **Berry Plastics Group (TBD)**
- **Presentation**
- **Johnson & Johnson (China) Ltd.** - William Bao, Associate Director
Theme direction: Packaging material supply chain management during epidemic
- **Presentation**

More Hot Topics:

- *Automated high-speed thin-walled injection molding solutions*
- *Applications of advanced thermoforming technologies for takeaway packaging*
- *Automated high-speed blow molding solutions*
- *Industrial robots and flexible production*
- *New breakthroughs in online visual inspection technology*
- *Information technologies such as MES and big data for improving plant productivity*
- *Advanced simulation technology speeds up R & D and production*
- *Automated quick die change systems increase automation level*
- *Advanced hot runners and precision molds facilitate innovative packaging solutions*
- *Zero-defect production solutions for lean production*
- *Efficient film processing technologies and smart manufacturing*
- *Advantages of different blow molding processes on disinfectant bottles*

12 June Afternoon Parallel Modules 13:30-18:00

Parallel Sub-Forum: FMCG packaging - Rigid packaging

- **Walch / Mentholatum / Liby or Other End-user Brands (TBD)**
- **Clariant Masterbatches (Shanghai) Ltd.**
- **Southern Packaging Group Co.,Ltd.**
- **Milliken Enterprise Management (Shanghai) Co.,Ltd.**
- **Coffee Break / Networking / Exhibition Visiting**
- **Inner Mongolia Mengniu Dairy (Group) Co.,Ltd. - Frank Wang, Packaging Research Director (TBD)**
- **Presentation**
- **Alpla (China) Technologies Co.,Ltd. / Shanghai Takemoto Packages Co., Ltd. (TBD)**
- **Presentation**

More Hot Topics:

- *Innovative packaging solutions for dietary supplements*
- *Popular packaging solutions for oral spray, disinfectant products, etc.*
- *Innovative mold designs enhance production efficiency*
- *Innovative cap designs and efficient production processing*
- *Innovative applications of PET bottles for daily chemical packaging*
- *Application developments of 3D printing in FMCG packaging*
- *Innovative designs and processing developments of pump heads*
- *Materials and additives for improving impact strength, flexibility and transparency*
- *Innovative designs and processing requirements for reusable daily chemical packaging*
- *Applications of high-quality materials and post-processing solutions for rigid packaging*
- *Materials and processing solutions for thinner and lighter packaging*
- *Replacement packaging designs for concentrated capsules*
- *Digital inkjet printing meets new needs in the personalized and interactive market*
- *Upgrade of high-precision, automated, digital and green silk-screen printing technologies*

Parallel Sub-Forum: Recycling and sustainable development

- **Ellen MacArthur Foundation - Arnold Wang, China Plastics Program Manager**
Theme direction: New plastics economy, current status of plastics recycling industry and related regulations
- **Sacmi (Shanghai) Machinery Equipment Co., Ltd. - Tracy Han, Technical Support Manager**
- **P&G Technology (Beijing) Co.,Ltd. - Deon Wang, Academician R & D / Packaging R & D Dept. (TBD)**
- **Presentation**
- **Coffee Break / Networking / Exhibition Visiting**
- **Nestlé (China) Co., Ltd. - Xuetao Wang, Packaging Director**
- **Presentation**
- **Amcor Flexibles Asia Pacific - Dr. Jack Chen, R & D Director-Technology & Sustainability**
Sustainability and challenges of FMCG packaging
- **Presentation**

More Hot Topics:

- *Technological developments of mono-material film solutions*
- *Innovative applications of PCR (post-consumer recycled) materials in packaging*
- *Performance improvement and efficient processing of PCR materials*
- *Innovative recycling solutions for PET bottles*
- *Innovative applications and processing of bio-based plastics in packaging*
- *Green packaging technology and life cycle management*
- *Green, reduced and recyclable solutions for express packaging*
- *Discussion on the recycling of takeaway and tea packaging*
- *Innovations of masterbatch and additive pave the way for recycling*
- *Granulating, sorting and washing of efficient and smart plastic waste recycling*
- *Efficient and stable processing of recycled plastics and non-petroleum-based polymers*
- *New models and practices of transboundary circulation and closed-loop recycling*
- *New progresses in green packaging and recycling of consumer brands*
- *Progresses of related regulations*
